Condensed Curriculum International, Inc.

www.condensedcurriculum.com

Since 1993, Condensed Curriculum International (CCI) has been offering leading instructor led allied health care training and education programs in partnership with community colleges and universities. CCI currently partners with over 250 colleges, operating in 40 states. CCI programs focus on two key objectives: to train students to get entry level health care jobs and to meet the training needs of health care organizations in desperate need of well trained professionals.

323link

www.323link.com

323link makes it just that easy! Even better, we do it with inexpensive hardware, an easy learning curve and compatibility with whatever technologies you are using already. Whether you are an educator, corporate professional, pastor or just have a need to get your message out to the world, we have a solution that's right for you. People are getting information in new ways today. Smart phones, iPods and portable media devices are replacing many of the traditional ways people find out what's going on. Major media outlets, radio stations, corporations and bloggers are increasingly using podcasting to allow their audience to stay tuned in where and when they choose. Getting your message into these new mediums is now very simple and cost effective. Let us show you how!

Xenegrade Corp.

<http://xenegrade.com>

With over 25 years experience in the continuing education market, Xenegrade's founder has extensive knowledge of the needs and demands of continuing education programs. "Program Directors are often entrepreneurs and business managers, and are not unlike business owners" states Rick Stern, President of Xenegrade Corp. Developing cutting edge, efficient, and easy-to-use Continuing Education software applications since 1991, Xenegrade's data management systems are designed with direct input from users of all levels. Xenegrade's software development knowledge combined with decades of educational management experience makes Xenegrade Corp. the right choice.

Technical Training Aids

www.ttaweb.com

TTA was founded in Birmingham, Alabama in 1963 and began serving the career and technical training needs in eight southeastern states: Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, and Tennessee. In 2005 North and South Carolina were added. Since our inception over 45 years ago, we've developed a reputation for unequalled product quality and commitment to our customers. We have an array of products and services to satisfy practically all of the technical training needs of educators from middle school all the way through community colleges and universities. TTA is committed to the concept of hands-on training, using the latest in educational technologies. Our products provide for a complete and industry based learning experience, giving both instructors and students what they need to be successful in today's classroom and later in the highly competitive workplace.
